# 1 MILLION LIFE SAVERS

Picture a community where every individual possesses the ability to step in confidently during emergencies, providing immediate care that can **save lives**. This is the vision we have & we'd love to make it a reality.

First Aid skills are the cornerstone of resilience and compassion within any community. They empower individuals to be proactive & enable them to respond swiftly to accidents, injuries, or medical crisis until professional help arrives.

We're excited to announce our **1 Million Life Savers** campaign, with the aim of training as many people as possible on how to save lives.

In order to make First Aid training more accessible we have created a new **Essential First Aid eLearning course** to help us achieve our vision. The course is extremely cost effective (**at just £6!**) and can be accessed anywhere, on any device. **Scan the QR code to visit our page & grab your course now!**

**Together. Saving lives.**
